TREKKING CAMP & SCHOOL EXPEDITIONS

Residentials, Expeditions & Thai Culture Camps

Adventure, genuine Thai heritage and curriculum-linked learning, 2½ hours from Bangkok — for international schools, Years 1–13.

The wild side of learning

We turn Thailand's forests, lakes and traditions into an outdoor classroom where students grow in confidence, character and curiosity — and have the time of their lives doing it.

Uncle Phannob Camping & Trekking runs residential camps, day programmes and Duke of Edinburgh expeditions at **Khao Yai Thiang, Sikhio** — about 2½ hours from Bangkok on the edge of the Khao Yai UNESCO forest. Every programme blends **adventure activities**, authentic **Thai cultural experiences** and real **personal development** — safely, and tailored to your students' ages and goals. Operated by Blackridge Group Co., Ltd.

Safety, first

First-aid-trained guides, staff on site overnight, published risk assessments and three layers of insurance behind every activity.

Real Thai culture

Genuine, hands-on immersion led by local artisans, chefs and a Thai-speaking team — not a tourist show.

Close to Bangkok

Two and a half hours from the city, in the centre of three UNESCO World Heritage sites, with prehistoric cave paintings ten minutes away.

Whole year groups

Three accommodation sites within ten minutes of each other host up to 250 students on one programme.

Curriculum-linked

Programmes mapped to learning outcomes — DofE expeditions, IB Group 4 and ESS fieldwork, and fully bespoke camps.

Whatever the weather

A ranked wet-weather backup for every outdoor activity, so the learning never stops when the rain starts.

OUR TEAM

Real people, real expertise

Our friendly, qualified Thai team lives and breathes the outdoors — and looks after your students like their own.

Four sessions, ninety minutes each

A rhythm built around the Thai climate and how young people actually work best.

The shape of a day is four sessions of about 90 minutes each. We start when it's coolest with the high-energy stuff, move into the skill-based activities, switch to calmer hands-on sessions after lunch when everyone's flagging in the heat, and finish the afternoon on something lively and team-based. Evenings are campfires, night hikes and stargazing — the skies out here are brilliant.

🍃 Food & fuel

Home-cooked Thai food that groups rave about, with Western dishes whenever you like. Our kitchens go nut-free and work around any allergy; halal on request. Teachers eat buffet-style; students get plated meals or packed boxes on activity days.

👥 Rotation groups

Students move in small, named groups so every child gets a turn on the high-demand activities — no long queues, no one left out. Bigger year groups run as two or three rotations.

🛡️ Ratios that fit

Schools bring roughly one adult per ten students. Our certified specialists add their own ratios on top — 1:6 on the water, 1:10 for climbing.

EVENINGS

Learn from Thailand itself

Real, hands-on cultural immersion led by local artisans, chefs and teachers — students don't just watch, they make, taste, move and create. Add a heritage day trip: we sit in the centre of three UNESCO World Heritage sites.

Pottery & Ban Chiang Heritage

Throw clay on the wheel and hand-build your own pot, just as Thai potters have for 5,000 years. Inspired by the famous Ban Chiang tradition, students shape, decorate and keep a piece of their own.
